

Above diagram would be stored as

```
Flow : {  
  nodes: [  
    {  
      id: A,  
      parent: "PARENT_ROOT",  
      children: [B, C, D]  
    },  
    {  
      id: B,  
      parent: "A",  
      children: [E, F]  
    },  
    {  
      id: C,  
      parent: "A",  
      children: [I]  
    },  
    {  
      id: C,  
      parent: "A",  
      children: [I]  
    },  
    {  
      id: D,  
      parent: "A",  
      children: [J]  
    },  
    {  
      id: E,  
      parent: "B",  
      children: []  
    },  
    {  
      id: F,  
      parent: "B",  
      children: [G, H]  
    },  
    }, .....  
  ]  
}
```
